

Dear Wyndham-Green partner,

Please see below 'Earth Hour 2009' campaign that Wyndham Worldwide is supporting with all its business units.

Earth Hour 2009

On Saturday, March 28, individuals, businesses, governments and communities from all around the world are invited to turn off their lights for one hour – during Earth Hour from 8:30 p.m. to 9:30 p.m. in their local time zone. This small and simple task will serve as a symbolic gesture towards support for action on climate change. The event began in Sydney in 2007, and has since grown into a global movement with a goal of reaching one billion people in 1,000 cities in 2009.

With Wyndham Worldwide's commitment to conserve natural habitats and prevent pollution, Group RCI strongly supports the Earth Hour campaign and encourage our associates to help spread awareness of what we hope will be a highly successful global event. I.e. Group RCI has sent the email out to their millions of members and supporting it internally with employees.
